

**“LUCIA”
BY ISENSI,
THE SENSORY
REVOLUTION FOR
WELL-BEING.**

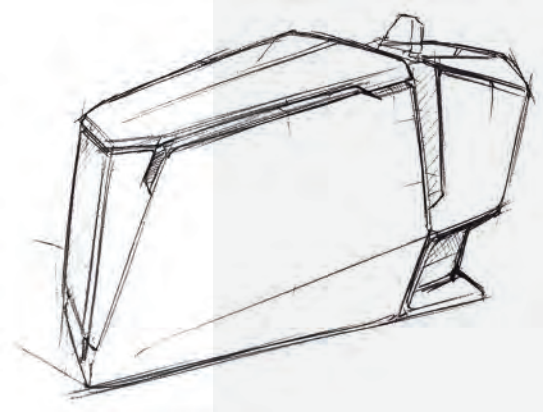

I SENSI
RESIDENCE

WITH THE NEW
**SENSORY
STIMULATION
TANK "LUCIA",**
ISENSI
REVOLUTIONISES
THE WELL-BEING
OF THE ELDERLY.

The tank **enhances the physical, mental and emotional well-being** of the user through water spray cycles and a complete programme of colour stimuli, fragrances and surround sounds. **The results are serenity, harmony, tranquillity and physical and mental relief.**

"LUCIA" by ISENSI, a multisensory experience that improves well-being and facilitates the work of caregivers in a comfortable and safe way.

How does "LUCIA" by ISENSI work?

The cabin uses different water spray cycles with hydromassage effect adapted to the needs of each user. Its use brings serenity, harmony, tranquillity and physical and mental relief.

Designed based on ergonomic studies, each user experiences a pleasant sensation of comfort, safety, hygiene and privacy at all times.

It also offers new experiences and options:

- **Select hydromassage cycles (20' - 50').**
- **Manage programmes with intuitive software that's very easy to use.**
- **Programme music therapy and colour therapy sessions according to the emotional state of each user.**
- **Use high-quality soaps, oils and scents.**
- **Perform head massage during each hydromassage cycle.**

ISENSI
L U C I A

It incorporates an area for washing hair, with a hair dryer, designed to provide a relaxing head massage.

Intuitive touch screen for easy control of the unit and selection of cycles and programmes.

The folding doors allow easy access and also protect the privacy of users thanks to their translucent materials.

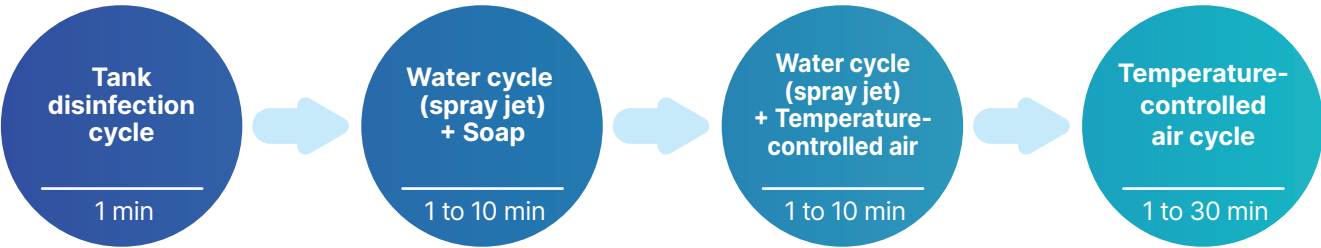

Water jets make washing a relaxing experience.

RECOMMENDATIONS FOR USE:

"LUCIA" de ISENSI is not recommended for people with low blood pressure, heart problems, respiratory problems, or those who are under the influence of alcohol or drugs. In addition, it should not be used by those with a body mass index (BMI) lower than 18.5 or greater than 30. If in doubt, consult a specialised therapist or send us an email to info@isensi.com

Cycles and Programmes

"LUCIA" BY ISENSI is controlled through a touch screen and intuitive software, offering various programmes or cycles according to the needs of each user. **The approximate duration of the Standard Programme is 20' - 50'.**

The sensory stimulation tank is characterised by its low energy consumption, offering an efficient and sustainable experience.

HYDROTHERAPY:
Provides relaxation and stress relief thanks to the combination of hot water and hydromassage jets that stimulate circulation, relieve muscle tension and promote overall well-being.

AROMATHERAPY:
Through the inhalation of natural scents and essential oils, aromatherapy stands out for its ability to promote relaxation, relieve stress and improve emotional and mental well-being.

COLOUR THERAPY:
The therapeutic properties of colours help balance emotions and promote physical health. By using appropriate colours, the tank is able to bring the body into a state of balance.

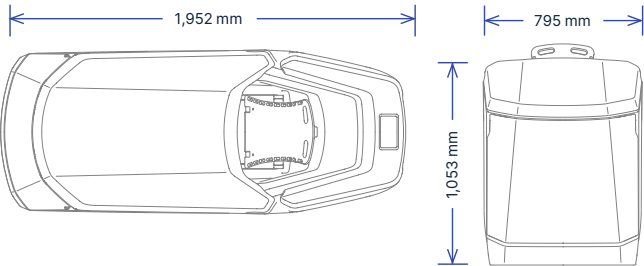

MUSIC THERAPY:
By selecting the right music, it provides benefits such as relaxation, cognitive stimulation, mood enhancement, pain relief, motor stimulation and even makes users more open to social interaction and emotional support.

A SENSORY
EXPERIENCE WITH
COUNTLESS
THERAPEUTIC
EFFECTS.
